

SERVICE FOR FIRE ALARM SYSTEMS

Code-Compliant, Customized Options

CM3 Building Solutions provides comprehensive services for fire alarm systems, from pre-site surveys and installation to complete test/inspect, maintenance, and monitoring services.

Our team brings decades of industry experience and includes Professional Engineers and NICET-4 fire systems trained personnel.

We will ensure that your system is installed and maintained to the industry's latest codes, including the 2019 National Fire Protection Association (NFPA) standards for Distributed Antennae Systems (DAS).

- » NJ and PA Certification
- » Compliant with all local, state, and federal guidelines
- » Certified to provide services for 2019 NFPA-compliant wireless communication systems

Complete Solutions

- » Site assessments
- » Installation
- » Test/Inspection
- » Monitoring
- » Scheduled service
- » Emergency service

Decades of Experience

We have extensive knowledge of fire alarm products and can provide service for your fire safety system regardless of manufacturer.

- » Our team includes professional engineers and NICET-certified technicians.
- » We continually invest in professional development, including: cross-training, factory training, and specialized equipment training.

Customized Options

We know that every facility has unique requirements. That's why we craft inspection and maintenance programs that work for your individual needs while ensuring confident compliance with all local, state, and federal regulations and guidelines

Our Fire System Services Deliver Confidence

Site Assessments

Technical Specialists conduct a thorough equipment inspection so you can be confident that we know your system and can support it. And, we are certified to conduct site assessments for DAS.

Test & Inspection Services

We hold all certifications needed to provide test and inspection services in New Jersey and Pennsylvania, including NFPA 72-compliant Emergency Responder Radio Communication Systems.

Monitoring Services

We provide UL-certified fire alarm monitoring services.

Emergency Services

We're available when you need us, whether you're an annual customer or just need one-time support.

- » 80+ field technicians
